**When Your Eyes Need Care**  
Use Murine Eye Medicine. No Smarting—Foolish—Act Quickly. Try It for Red, Weak, Itchy Eyes and Granulated Eyelids. Murine is recommended by our Oculists—our "Patent Medicine"—but used in successful Physicians' practices for many years. One bottle at 50c per bottle. Murine Eye Salve in Ascarole Tubes, 50c and 10c. Write for Book at the Eye Free. Murine Eye Medicine Company, Chicago, Ill.

## UNION AMALGAMATED MINE TO BE SUNK TO GREATER DEPTH

Extensive work is planned by the Union Amalgamated Mining company, of Manhattan, which corporation now owns practically all of the lower end of Litigation Hill, the holdings running up as far as the Manhattan Consolidated ground. The men have been taken from underground temporarily and are grading for a compressor house, the machinery having been brought from the Earl ground and will be installed at the Bath lease shaft, which is now the principal opening into the underworld of the corporation.

Sufficient ore has been broken or is exposed in the stopes of the company to keep the mill running for a long time. It will be drawn upon as needed to keep the bins filled. As soon as the compressor is installed the shaft, which is now 500 feet deep on incline, will be extended down an additional 125 feet and a crosscut will be run to the Earl ground. This working will cut the ledges that were superficially followed by leasers in the early days.

## PUBLICITY MANAGER FOR THE CAMPAIGN

John C. Martin, associate editor of the Bonanza, has been selected to direct the publicity campaign of the Republican State Central committee. He left for Reno this morning to begin a state wide work, having for its object the exposure of the fallacies of the Wilson-Pittman regime, so far as Nevada interests are concerned.

Mr. Martin has had extensive experience in publicity, having specialized on that class of work in Nevada, Utah, Texas and Colorado. He is conversant with the resources of Nevada better than another other writer, owing to his connection with the land department of the Southern Pacific railway, whose colonizing circulars and descriptive pamphlets he has prepared for the past six years. Headquarters will be maintained in Reno, but Mr. Martin's duties will carry him into every county of the state.

## BIRTHDAY PARTY AT HOME OF M'GEES

Mrs. Otto Schiffner is giving this afternoon a children's party at the home of Mrs. John McGee in honor of her son, Milton's, eighth birthday. The invitations were tiny pink Keweenaw and the decorations are carried out in pink rose buds and pink tulips. The place cards are Keweenaw with a white cake and eight pink candles for the table decorations.

Those invited to the party are Nora and Jack McGee, Bernice and Charles Brown, Miland Haskell, Edward Erickson, Rodney Simpson, Raymond Van House, Louisa and Millie Hagen, Robert Weymer, Clinton and Francis Piercy, Bevis Weir and Dabert Schiffner.

## DANIELS TALKS FOR A STRONGER NAVY

(By Associated Press.)

KALAMAZOO, Mich., Sept. 26.—Importance of the provision in this year's great naval appropriation bill authorizing the president to call a world disarmament was emphasized in a speech here last night by Secretary Daniels.

"As long as other great powers push into battleship construction, American cannot safely fail to speed up so as to be able to meet any possible foe," Mr. Daniels said, "but in the very terms that say to the world that we have the money and we are ready to spend it to make a navy just as big as our extended coast line and national interests demand, we say also that we are ready to stop this program of construction if an international agreement among the big navy powers can be reached to end competitive construction."

"The far reaching importance of this tender to other powers has not been fully appreciated by our own people. Perhaps not by the people abroad, engrossed as they are in war. For the first time in the history of the United States there is laid down the broad policy which would end the fear of war and the burden of building and maintaining gigantic navies."

The secretary deprecated a sneering attitude toward advocates of peace and disarmament.

and from which they took many shipments of profitable ore.

If the showing on the 625 level is what is anticipated, the mill, which is now situated more than a mile from the property, will be dismantled and moved to a point just below the Bath property. A number of Tonopah people who are interested in the property visited the mine Sunday. They descended to the 500 foot level and there they took samples from the vein which they planned and in every instance secured fine strings of gold. The showing at this point is said by them to be the best in the property. The mill is running full shifts and the amalgam on the plates evidenced that an excellent quality of ore is passing through the heads. It is estimated that the saving in haulage by moving the mill to the mine will pay the cost in about 15 months. All who have recently inspected the Union Amalgamated are convinced that it is one of the big coming properties of the Manhattan district.

## PEBBLE MILL IN TONOPAH STARTED

Owing to the war and to labor conditions, the supply of tube mill pebbles has become lessened and the price has proportionately advanced. The Tonopah Extension Mining company, with its half dozen tubes, has been endeavoring for some months to secure satisfactory pebbles in sufficient quantity and, in order to be certain of keeping fully supplied, it has instituted a mill of its own for grinding the pebbles.

The raw material is a hard quartz taken from the dump of the No. 1 shaft. This quartz is harder than the average ore worked from the present openings and the friction does not appreciably reduce the size of the pebbles after a run of a number of days.

The mill is simply a huge cylinder, driven by electric power. The rough quartz is introduced and the revolutions of the mill act on the principle of diamond cut diamond, and the pebbles emerge in spherical form. The only feature of the mill that is unpleasant is the noise that it produces, drowning the roar of the stamps in the mill adjoining and making it almost impossible to carry on a conversation within a hundred yards. What the office force of the Extension say, or think, about the innovation, is unprintable.

## HIGH PRESSURE SHOWN BY HYDRANT TESTING

R. I. Rowley, assistant engineer for the Board of Underwriters of the Pacific, is in Tonopah today making tests of the new high pressure system. This afternoon the hydrant in front of the Bonanza office showed a pressure of 76 pounds, while four streams, throwing 1500 gallons a minute, were playing from other hydrants in the neighborhood. It is possible that his inspection will result in a decrease in insurance rates.

## GOOD "SWEETENING" IN THE RESCUE WINZE

West of the winze on the 1050 level of the Rescue-Eula the vein, which is nearly four feet thick, shows a high grade streak similar to that on the 1400 level of the Belmont. There is a seam of pyrite that is so rich that to state what it assays would give a false impression of the vein, for it is about as thin as it is rich, making a very excellent sweetening. In this vein there is another seam, in places four inches in width, which runs better than a thousand ounces in silver and over 30 ounces in gold—another bit of lasses for the heads. The balance of the ledge is average grade ore. Excellent progress is being made on the 1100 level, now that the new compressor is at work and is able to furnish air for all the workings.

## WEST ORE SHOOT FOUND

White Caps has strengthened and increased in activity during the past week. One of the principal reasons seems to be the opening up of the west ore shoot on the 310 level. Thus far it appears that only a segment of the shoot has been found and the crosscut is being continued to pick up the other limb. A raise has been started on the vein, which is yielding excellent assays across the face.

## PERSONAL

E. H. McMURRAY left on this morning's train for New York.

GEORGE ALLEN has gone to Lander county on a prospecting trip. C. C. BAIRD and wife, of Twin Falls, Idaho, are registered at the Mishpah.

ED LYNCH, a business man of Reno, is spending a few days with friends in this city.

VAIL PITTMAN returned this morning from a trip to Reno, where he met his brother, Senator Pittman.

LLOYD HORTON and wife will leave in the morning for Hot Creek, where they will spend their vacation camping.

ARTHUR SUNDBY was a departure yesterday for Seattle, his former home. He will visit relatives there for several weeks.

MRS. L. L. PATRICK, Mrs. Campbell and Miss Campbell motored over from Goldfield yesterday and spent the afternoon at the home of Mrs. Harry R. Grier.

WALTER F. PRATT, regent of the State University, was a passenger this morning from Goldfield, en route for Luning, where he has mining interests.

FRANK P. KERNS, Jr., who had been visiting his parents, brother and sister in Tonopah for the past three weeks, returned to San Francisco this morning.

GEORGE STOCKINGER and wife, who resided for a long time on Florence avenue, left this morning for Los Angeles, where they expect to make their home.

E. H. MEAD, general manager of the Cash Boy Consolidated Mining company, returned this morning from a visit to San Francisco, where he was called on company business.

W. D. FORSTER, general superintendent and traffic manager of the Tonopah & Goldfield railroad, was a passenger this morning from Goldfield en route for San Francisco.

REV. S. H. JONES, superintendent of Presbyterian missions in Nevada, was a passenger on the southbound train this morning from his home in San Bernardino, Cal. He will visit the missions in the southern part of the state.

## GERMAN SUBMARINE BELIEVED TO BE DUE

(By Associated Press.)

WESTERLY, R. I., Sept. 26.—The tug Westerly, of the Westerly Tugboat company, left here last night on a mission understood to be connected with the expected arrival of a German merchant submarine. Frank H. Robinson, captain of the tug, who was said today to have received instructions from T. A. Scott Wrecking company of New London to proceed to Montauk Point, N. Y., to assist in towing a submarine to New London, declined to make any statement as to the destination of this vessel.

## HUGHES REPLIES TO PRESIDENT WILSON

(By Associated Press.)

DAYTON, Ohio, Sept. 26.—Charles E. Hughes, addressing an audience in Memorial hall here last night, replied to statements in President Wilson's speech of Saturday, in connection with the passage of the Adamson law.

Mr. Hughes characterized as "most regrettable" the reference made by President Wilson to the eighty cent gas case in New York as an instance where the courts had refused to declare a rate fixing law unconstitutional in advance of determining how it would operate.

## DUTCH STEAMER IN CUSTODY OF GERMANS

(By Associated Press.)

WASHINGTON, Sept. 26.—Official state department advices today report seizure of the Dutch steamer Prinz Hendrick by German warships, did not say on what charge Isador Polak, the naturalized American removed from the vessel, was being held. The department is investigating further.

Much significance is attached by officials to German seizure of mail aboard the steamer. Some time ago Germany claimed the right to censor letter mail on the basis that the Hague convention, declaring the "inviolability" of such mail had been rendered inoperative by failure of several of the belligerent nations to ratify it, but more recently the practice apparently had been discontinued.

## REVOLUTION SPREADING

(By Associated Press.)

PARIS, Sept. 26.—The revolutionary movement is spreading in Greek Macedonia, Crete, Aegean islands and in Epirus.

## NOTICE OF DIVIDEND

At a meeting of the Board of Directors of the Tonopah Mining Company of Nevada, held September 21st, 1916, a regular quarterly dividend of fifteen per cent was declared, payable October 21st, 1916, to stockholders of record at noon, Sept. 30th, 1916. Transfer books will close at noon, September 30th, and open at 10:00 A. M. October 9th, 1916. (Signed) C. A. HIGBEE, Secretary.

ORE SHIPPER'S DEPARTMENT (MOCHERS)

## Associated Consulting Engineers

Are you paying freight on water? Are your molasses excessive? Are your cars properly weighed and cleaned out at the Sampler or Smelter? Are you getting paid full value of your ore, or are you losing ore by excessive moisture and another portion by improperly cleaned cars?

Are your settlements as prompt as they should be? If not, let us "Mooch" for you. We have competent men at the various Samplers and Smelters to see that your Clients' ore is correctly weighed and sampled, that his cars are clean when weighed, light, and that he gets a prompt and correct settlement for his ore. For this service and anything that may come up in interest of shipper, our charge is based on tonnage and will be furnished on application. We are saving money for others, why not for you?

## Better lighted windows sell more goods

At no increased cost for current you can make your show windows just twice as bright as they now are. And without the glare which hurts people's eyes and really drives them away.

## X-Ray Reflectors

The Show Window Searchlights

are the most powerful reflectors made and they last indefinitely. They hide the glaring lamp, and on account of their scientific design, concentrate all the light on the merchandise on display. None is wasted on the ceiling or sides of the window nor on the sidewalk.

These reflectors are the standard for window lighting. Marshall Field & Co., Chicago, used 1500 X-RAY Reflectors constantly for thirteen years and when a few of these were tested by disinterested engineers in Cleveland it was found they had not lost one per cent in reflecting efficiency. X-RAY Reflectors are the only pure silver plated reflectors which last indefinitely.

## Free Demonstration

We'll show you X-RAY lighting any evening you may in your own windows. Nothing will convince you more quickly of its wonderful superiority. It is a necessity to any merchant. Phone us. Ask for booklet, "Show Window Searchlights."
